

Perfect Turf

Residential Application: Backyard Garden Conversion

Before

- Unused garden had become a weed garden and eye sore.
- Large part of the yard was not being used by the children or when entertaining friends.
- Dog would walk into garden and get muddy paws whenever it was wet outside.

After

- Weed garden was converted to an attractive putting green.
- Large part of the yard now being used by the children and when entertaining friends.
- Brick patio and **Perfect Turf™** landscape turf added to create a mud-free area for the dog.
- Automatic low-voltage lighting added to the fence and in the holes for nighttime golf.
